

Recommendation WG 3.89.018

THE PARTIES TO COORDINATION

www.nhma.org

RECOMMENDATION

Subject Area: Coordination Procedures

Title: The Parties to Coordination

Recommendation

The text in Section 21.100(d)(1) requires coordination to involve "existing users in the area and other applicants with previously filed applications." Missing from this list are "parties with previously coordinated (but not yet filed) proposals." This category is important to include since coordinated proposals are considered to have interference protection.

Recommended: WG3.89.018
Approved: 02-09-89
